Allowable Subject Matter

1. Claims 1-19 are allowed.
2. The following is an examiner's statement of reasons for allowance:

Claims 1-19 are allowable primarily because the references of record, singly or in combination, cannot anticipate or render obvious the following limitations (in combination as recited in independent claims 1 and 10): performing a first etching process to remove portions of each of the following layers: the second metal, the semiconductor, the first insulating, the first metal, and the transparent conductive; wherein removing all of these layers provides *either* source/drain electrodes *or* gate/common lines. In other words, the current invention uses a "single" etching process to remove all of the layers (specified above), whereas the prior art processes use a "first" etching process to pattern/remove a single or double layer (i.e., to remove/pattern a first metal layer and/or a transparent conductive layer) in order to provide gate/common lines.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

3. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Lex Malsawma whose telephone number is 571-272-1903. The examiner can normally be reached on Mon-Fri (8 hours between 5:30AM and 8:00 PM EST).

Art Unit: 2825

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Matthew Smith can be reached on 571-272-1907. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.
